Lucky you! You've just opened one of the most exciting video games in the world.

CREATIVISION's CRAZY CHICKY

You are a Chicky!
Now, as everyone knows, the one thing a chicky does best is to lay eggs. And that's why you travel all over the Happy Daze Maze laying eggs wherever you go. Your mission is to fill the whole maze with eggs.

Beware the Funky Foxes!
While you travel around the Happy Daze Maze, laying your eggs and not bothering anybody, don't forget about the 4 Funky Foxes.

They will sneak around and try and catch you, and if they do, they'll gobble you up for dinner. So watch out!

Funky Foxes can run faster than you can, but they can't see very good, so they go slower around corners and you might be able to get away, but remember, there are 4 of them and only 1 of you, so be careful.

Save yourself with an ENCHANTED CARROT!
There are 4 ENCHANTED CARROTS located in the Happy Daze Maze and if you can find them and eat them up, you will have special super powers for a while. You'll be able to chase the Funky Foxes and eat them up!

Your super powers only last for a little while though. Soon the Funky Foxes will change back to their original color and that means your super powers are all gone. There's nothing you can do but run.

Secret Tunnels!
Besides making eggs, Chicky also make secret tunnels to hide in. Only you can go into these tunnels. Funky Foxes can't follow you. So you can go in and hide, or you can go right through and come out the other side, to get away from any no-good Funky Foxes that are getting too close.

You have 4 lives!
Even if you get caught and get gobbled up by the Funky Foxes, don't worry. You'll come right back to life again. But keep your eye on the bottom of the screen to see how many lives you have left.

When all 4 are used up, it's game over for you!

Set a good egg-sample!
If you manage to travel all around the Happy Daze Maze and lay your little eggs everywhere, don't get upset. There's lots more room for you to lay eggs. A whole new empty Happy Daze Maze will appear automatically. It will be slightly different with the 2 Secret Tunnels, but the rules are still the same. When you fill up this second maze, the first one will appear again, empty and ready for you.

You should also eat everything you can find in the Maze. You get extra points whenever you eat an Enchanted Carrot, when you gobble up a Funky Fox with your super powers and even for munching the 1 Ultimate Orange that is hidden in the maze.

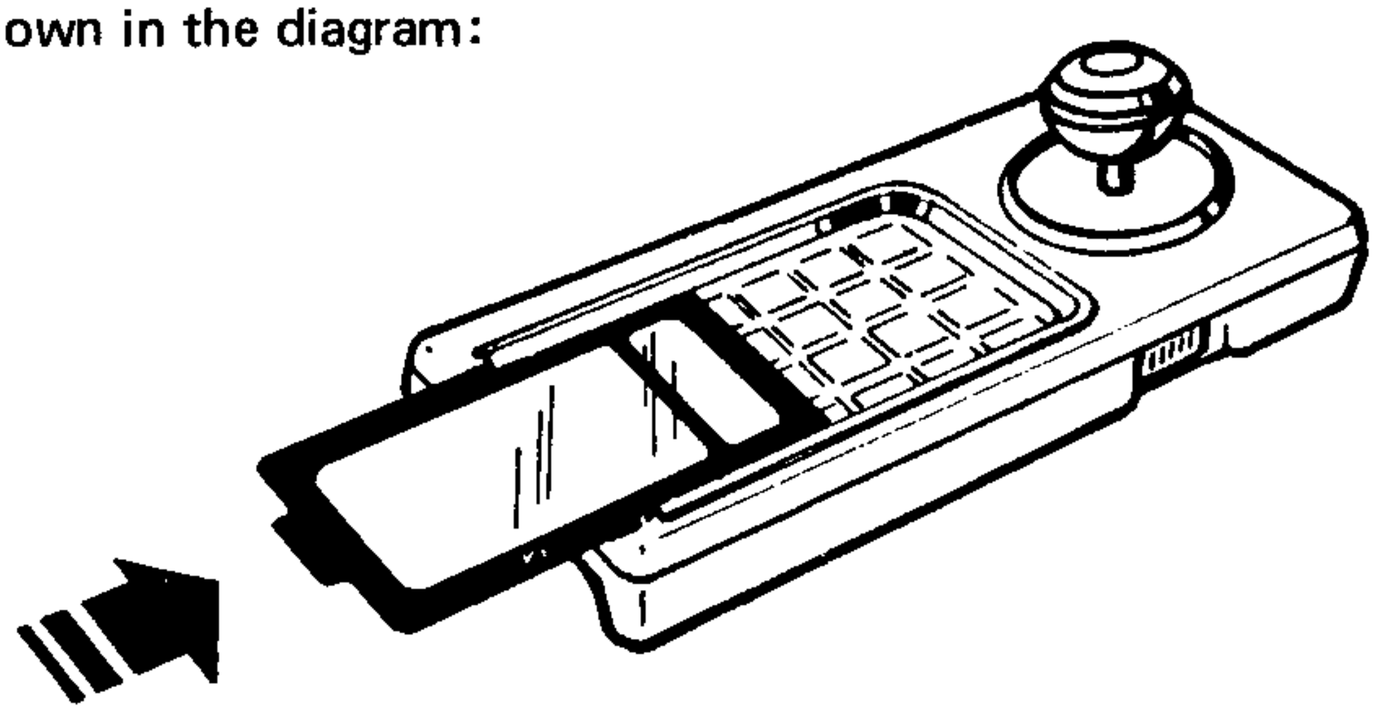
GET READY!
You can't begin laying your eggs until conditions are right, so go through this GOOD EGG-SAMPLE checklist carefully:

1) MAIN UNIT ANTENNA CABLE . . . . CONNECTED TO TV . . . CHECK!
2) MAIN UNIT POWER CORD . . . . PLUGGED IN . . . . CHECK!
3) TV SET . . . . PLUGGED IN . . . . . CHECK!
4) MAIN UNIT POWER SWITCH . . . OFF . . . . CHECK!
5) CRAZY CHICKY CARTRIDGE . . . INSERTED . . . CHECK!

Good! Now you're ready to lay down a good EGG-SAMPLE.

MOVE MAIN UNIT POWER SWITCH TO . . . . ON position. The Happy Daze Maze will appear in your TV screen. If not, adjust your TV set until it does.

GET SET!
1) Insert one of the enclosed GOOD EGG-SAMPLE GRIDS into each hand control as shown in the diagram:



2) Press RESET button on main unit.
3) Select EGG-SAMPLES #1-32 by pressing the SELECT buttons on either of the hand controls.

GO!
Press the START area on the hand control GOOD EGG-SAMPLE GRID.

Use the hand control JOYSTICK to move through the Happy Daze Maze. Don't worry about how to lay your eggs, you'll do that automatically, wherever you go.

Invisible Funky Foxes!
In some EGG-SAMPLES, the fierce Funky Foxes will use their magic powers to pop in and out of sight, so be careful.

Invisible Happy Daze Maze!
In other EGG-SAMPLES, the sneaky Funky Foxes will use magic to make the whole Happy Daze Maze invisible for short periods, so all of a sudden you'll find yourself stumbling around in the dark.

One-player EGG-SAMPLES
In these EGG-SAMPLES, there is only one Chicky, and the only thing you have to watch out for is the nasty Funky Foxes.

Two-player EGG-SAMPLES
In these EGG-SAMPLES, there are two chickies, one controlled by each hand set.

You can co-operate with another player and combine your score against the rotten Funky Foxes. If you do, whenever either of you eat up an ENCHANTED CARROT, both of you will be able to chase and eat Funky Foxes. But watch out. Your partner can block your movement in the maze.

In other two-player EGG-SAMPLES, you can compete against the other player, achieving separate scores. The other player can block your progress in the maze and when one of you eats up an ENCHANTED CARROT, only that one can then eat up Funky Foxes.

Four player EGG-SAMPLES!
In these EGG-SAMPLES, two teams of 2 players each compete against each other. You play with your team member co-operatively in each set. The first team score is combined on the screen under '1-up'. The second team under '2-up'.

Choose your favorite EGG-SAMPLE!
There are a total of 32 different EGG-SAMPLES for you to choose. Pick from:
